Subject: Letter of Reference for Pranav Thakur

To Whom It May Concern,

Pranav Thakur was my Teaching Assistant at Duke University for the course Mechanical Engineering Design for Analysis (ME321L) in Fall of 2025. This was my first time teaching ME321L and I was not provided a prior-semester course pack; hence all content and delivery were new, and there were more unforeseen corrections needed than normal. Pranav was extremely professional in this stressful situation and together we executed the course with precision – receiving above average ratings in the end-of-semester course survey. I found Pranav to be very intelligent, hardworking, loyal, cool headed, and a pleasure to work with.

Thank you,

Steven L. Creighton, Ph.D.
Adjunct Assistant Professor

Thomas Lord Department of Mechanical Engineering and Materials Science
Duke University
